

Pray in the Spirit at all times and on every occasion. Stay alert and be persistent in your prayers for all believers everywhere.

Ephesians 6:18

Web 2.0 for Churches

What is Prayer Toolbar?

If your church is like most, you spend considerable time, effort and money creating church bulletins - and we all know what happens to most of them after they are read.

We all know what happens to most church bulletins after they are read.

Prayer Toolbar is a powerful yet subtle way to stay connected with people beyond the once-a-week church service.

Anytime one of your members with Prayer Toolbar goes online, they will see your church's messages embedded discreetly within their web browser, 24/7 regardless of the web site they are viewing. At any time you can update them on:

- Prayer requests
- Announcements
- Event reminders
- Sermon highlights
- Relevant scripture
- Inspirational quotes
- Outreach opportunities

It's like your bulletin and web site—only better!

Prayer Toolbar is a simple add-on to Internet Explorer that displays information that you publish through a secure, password protected web site. It also features your logo that links to your web site. It's like handing out the highlights from your bulletin and web site whenever someone is online.

Separate Connections

Separate, smaller groups within your church may want to have their own Prayer Toolbar all to themselves. This is a great way to publish information that's important and relevant just to them.

Separate Connections are ideal for:

- Satellite locations
- Youth groups
- Sports ministries
- Mission groups
- Day-care & private schools
- Prayer & small groups

Don't forget your youth

Prayer Toolbar displays the information you publish along with your logo that links to your web site.
